

Why should you, your family and community participate in CARIBE WAVE?

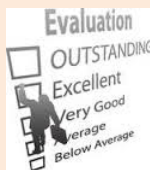

Test your family and/or community emergency plan.

Participate in any drill, orientation, table discussion or other (notify your \*OMME).

Monitor the activation of the NOAA Radio or the EAS (Emergency Alert System).

Relate with the messages offered by the Puerto Rico Seismic Network and the Pacific Tsunami Warning Center.

Complete the exercise evaluations to see how it can be improved.

To participate, register as an individual, family or community at:  
<http://caribewave.uprm.edu/>

\*OMME – Municipal office of emergency management of your municipality
